## Knapp Juror Was Biased

Albany, May 19 (AP).—The Albany Knickerbocker Press said today that evidence to disclosures by David Main, member of the jury which disagreed and was discharged in the trial of former secretary of state Florence E. Knapp, George Z. Medallie, chief of prosecution, was prepared to bring contempt of court proceedings against the juror.

Failure to reveal contact or acquaintance with a county official during the examination of a prospective juror would constitute contempt of court, Mr. Medallie was quoted as saying. The newspaper added that Main had stated in an interview that if the district attorney of Albany county, Charles J. Herrick, "couldn't find evidence on which to convict Mrs. Knapp, I couldn't see where anyone could."

Mr. Medallie planned to apply to Supreme Court Justice Ellis J. Staley today for an order directing Main to show cause why he should not be held for contempt of court, said the Knickerbocker. In the event the order is obtained, Supreme Court Justice Stephen Callaghan, who tried Mrs. Knapp's case, was ready to return here from Brooklyn to hear arguments on the motion, the paper said.

A demand for certain letters offered at the trial as evidence by the defense and which were alleged to have been taken from the state department files by Mrs. Knapp when she left office has been made on Mrs. Knapp and her counsel by Robert Moses, secretary of state.

One of the letters, addressed to Mrs. Knapp as secretary of state, constituted a ruling by the attorney general on her powers of appointment of additional help for the census enumeration without civil service examination. The other, signed by George R. Hitchcock, secretary of the civil service commission, authorized appointment of Julia A. Smith, Mrs. Knapp's sister, for extra census work.

Mrs. Knapp returned to her home in Syracuse yesterday to await her second trial on May 21 on the charge of grand larceny of a state census pay check.

## ENGLISH VICAR GIVES TIPS FOR BRIDEGROOMS

London, England, May 19 (AP).—The vicar of St. Philip's Church is not altogether satisfied with the deportment and responses of bridegrooms in his Battersea district. In his magazine he gives the following tips to prospective bridegrooms: "Don't rush at the blushing bride when she joins you at the chancel steps and shake hands with her. One bridegroom did this at a recent wedding and exclaimed 'ow are yer mate'."

"When the priest tells you to say after him 'God's holy ordinance,' don't say 'God's holy ordinance.' Some of the audiences we have seen at recent weddings here could never get any stretch of imagination be called holy."

"It is always best to refrain from drinking anything stronger than tea before the ceremony. The smell of alcohol is rather objectionable and especially in church."

"When the clergyman asks you to say 'I do,' please don't say 'tough.' The former means faith, fidelity, truth; the latter anything hollowed and open longitudinally on the upper side."

## UNION SYMPATHIZERS ASSAULT NON-UNION MEN

Caldwell, Ohio, May 19 (AP).—Feeling ran high in the Noble County Mining District today as Sheriff Byron Schaefer and a force of deputies backed serving nearly a score of affidavits charging union miners' sympathizers with rioting and violation of injunctions in connection with last night's disturbance at Coal Ridge.

Fear of further trouble was admitted by authorities, who said the recent reopening of several mines on a non-union basis had greatly increased feeling against operators and non-union workmen.

Promised arrests by Schaefer today resulted from pelting of three houses carrying non-union miners to their homes from work at Coal Ridge last night. A crowd of 250 union sympathizers hurled bricks, stones and other missiles.

## CATSKILL WILL HAVE NIGHT RIVER SERVICE

Catskill is to have night steamboat service to New York city. The Hudson River night line has consented to take Catskill the only stop on its southbound trip from Albany to New York city. The steamers will leave Catskill daily at 11:45 p. m. This service will be a great accommodation to the residents of Catskill and Greene county and also to the summer vacationists. It is also expected to develop the tourist business of the Catskill mountain region.

## Oil City Has Big Fire

Oil City, Pa., May 19 (AP).—Firemen of three cities battled fire in several buildings that threatened the entire business section of the city here this morning. Damage amounted to approximately \$250,000, was reported at 3 o'clock with the fire not under control. Apparatus from Franklin, Titusville and Oil City was in the blaze. No one was reported injured.

## Nobile Hopes To Start Friday

(Copyrighted by The Associated Press, 1928)

King's Bay, Spitzbergen, May 19 (AP).—General Umberto Nobile watched weather conditions closely today to determine whether he should start tomorrow in the dirigible Italia on a flight to the north pole.

The present plan is to start tomorrow or Saturday, General Nobile told the correspondent of the Associated Press that weather conditions today and tomorrow morning were the determining factors.

The Italian explorer said that the question of the number of men that he would take along would be decided just before the start. Asked whether he expected to find new land between Spitzbergen, Franz Josef Land and Nicolai II Land, General Nobile replied: "We shall see."

## Bremen Fliers Reach Cleveland

Brook Park Airport, Cleveland, Ohio, May 19 (AP).—The Junkers monoplane carrying the three Bremen fliers landed at Brook Park airport at 12:12 p. m. today.

Philadelphia, May 19 (AP).—The German-Irish crew of the transatlantic flier Bremen started for Cleveland today, leaving the Philadelphia navy yard in the F-13, sister ship of the Bremen at 9:15 a. m.

## Society Notes

### Moore-Gellner.

New York, May 19 (Special to The Freeman).—For their marriage ceremony to be performed in Saugerties, N. Y., Charles H. Moore, 35, an engineer, widower, of 111 East 51st street, New York, and Mrs. Lily G. Gellner, 35, a secretary, of 2 East 86th street, New York, procured a marriage license at the Municipal Building here today. Mr. Moore was born in Columbus, O., and is the son of Thomas and Clara Daniels Moore. He was twice married previously and both former wives are dead. Mrs. Gellner was born in New York city and is the daughter of Theodore and Bertha Bijou Gellner. She was divorced from Max Gellner in Berlin in 1920.

### Surprise Shower.

Woodstock, May 19 (AP).—Mr. and Mrs. F. B. Happy of Woodstock, gave a surprise shower at their home to Miss Mildred Wyckoff and the Rev. H. I. Todd. The guests gathered in honor of Miss Wyckoff and Mr. Todd, whose engagement was recently announced by Mrs. M. S. Wyckoff at the Brass Kettle Inn, Kingston. The guests were entertained by games conducted by Miss Margaret Happy, which were both novel and entertaining. Prize winners in a word test were Mrs. F. C. Clough, first, and Mrs. M. S. Wyckoff, second. In an orange picking contest William F. Terwilliger won first laurels. A sculpting contest with chewing gum was won by Frank Bradley with L. P. Carey a second runner-up or high place with a ball-relief of a goat. Other games were followed by refreshments served by Mrs. Happy and daughters. A large table of gifts was presented to the bride-to-be by her many friends. The presents included linens, laces, pottery, glassware, china and other handsome articles. The party broke up at a late hour with well wishes to the guests of honor. Announcement was made that Miss Wyckoff and the Rev. Harvey Todd would be married May 22, at Plainfield, N. J.

## TENTH ANNIVERSARY OF THE AIR MAIL

Washington, May 19 (AP).—The tenth anniversary of the air mail was celebrated today at a luncheon attended by most of the delegates to the 15th annual meeting of the United States Chamber of Commerce, and by several of the country's most prominent aviators.

### Planned Flight to Rome.

New York, May 19 (AP).—Lieutenant Royal V. Thomas, killed when his Hellanca monoplane, Reliance, crashed yesterday near Pottersboro airport, N. J., had been planning secretly a flight to Rome. He was making a test flight of his plane when the accident occurred. Vaughn Weatherly, Wright mechanic, was killed with him.

### Three Against Smith.

Birmingham, Ala., May 19 (AP).—With three places on the state's delegation at large to the Houston convention virtually assured for the anti-Smith faction as a result of Tuesday's primary, interest centered today on the close three-cornered race for fourth place.

### Watson's Mortality 20,000.

Indianapolis, Ind., May 19 (AP).—A final majority of from 20,000 to 25,000 for United States Senator James E. Watson in the race with Herbert Hoover for the Presidential preference vote was indicated today as belated returns from Tuesday's primary were assembled.

## DR. McMAHON INSTALLED FOURTH BISHOP OF TRENTON

Trenton, N. J., May 19 (AP).—The Right Rev. John J. McMahon, D. D., formerly of the Roman Catholic Diocese of Buffalo, today was installed as fourth Bishop of the Trenton diocese by his Eminence Patrick Cardinal Hayes, of New York.

Hundreds who were unable to gain entry to St. Mary's Cathedral stood outside to honor the prelate while inside.

The solemn pontifical Mass was sung by the Right Rev. Edmund F. Gibbons, Bishop of Albany. The Right Rev. Thomas J. Walsh, Bishop of Newark, delivered the sermon and Cardinal Hayes addressed the congregation.

## Hurt in Motor Crash.

Horrell, N. Y., May 19 (AP).—Mrs. James Donovan of Wellsville is in the Cuba hospital probably fatally injured and her husband, James Donovan, is in the Jonas Memorial Hospital in Wellsville less seriously injured as a result of an automobile crash last night on the Friendship road. The second car carried Victor, Daniel and Don Dwyer of Wellsville and Stanley Renwick of Jamestown. Victor and Don Dwyer are in Cuba Hospital but not seriously hurt.

## Fliers Narrowly Escape.

Puerto Cabezas, Nicaragua, May 19 (AP).—Two American fliers had a narrow escape from injury when their plane made a forced landing near La Luz mine, which was recently destroyed by rebels. The fliers, Captain E. D. Howard and Corporal Cole, were in an amphibious plane scouting over the mining district when forced down yesterday. The plane was damaged but the engine and parts will be salvaged.

## Granted Divorce.

An interlocutory decree of divorce was granted Mrs. Dorothy J. Schneider of Saugerties by Justice Morschauer in supreme court at Poughkeepsie. The action was not contested. Mrs. Schneider was awarded the custody of their two children and alimony of thirty dollars a week.

## Lutherans Propose Merger.

Johnstown, N. Y., May 19 (AP).—The Evangelical Lutheran Synod of New York and Northern New Jersey in convention here today adopted a resolution accepting a proposal which would merge the New York Synod, the New York Ministerium, and the New York and New England Synod.

## Lack of Mathematics Ruining the World

New York, May 19 (AP).—The world, in the opinion of Dr. George J. Smith, chairman of the board of examiners of the New York Board of Education, would crumble in fifty years if it were left to women.

"It would do so," Dr. Smith told the Culture Club, "because it is impossible for women to master higher mathematics. Mathematics is absolutely necessary for culture and yet there is only a very small number of men who know it thoroughly."

## Minstrel Man Visiting Here.

Clay Hubbard, lately of the Gay Brothers Minstrel, is in Kingston calling on friends. He knows a large number of people here met while playing with shows for a good many years. Mr. Hubbard does a black-faced comedy part with a routine of musical numbers. He specializes in harmonica solos and plays several instruments at the same time.

## Cars Crash on \$103,310 Put Up in Saugerties Road; Four Men Hurt

New York, May 19 (AP).—Facing the U. S. Senate Campaign Inquiries for half an hour today Governor Alfred E. Smith testified that he knew nothing about the finances of his campaign for the Democratic presidential nomination.

However, his campaign manager, George R. Van Namee, told the senators that \$103,310 had been received by the governor and \$92,000 had been expended.

William F. Kenny, a New York paving and gas main contractor, put up \$70,000 of the total receipts, Van Namee said, \$20,000 in outright gifts, and \$50,000 in loans which are yet to be paid.

The heaviest expenditure was made in California where Governor Smith recently ran for ahead of Senators Reed of Missouri and Walsh of Montana in the Democratic presidential preference primary. A total of \$41,500 was sent into that state, of which \$3,500 subsequently was returned.

Van Namee said that he understood that the local Smith organization in that state raised between \$2,300 and \$2,400.

The Smith manager, who is a member of the New York state public service commission, testified that no money had been spent in the southern or border states. Seven thousand dollars was sent into the far west for use in Utah, Wyoming, Nevada, New Mexico, Washington, Oregon, Montana and Idaho.

In addition, 5,000 was sent to Joseph F. Guffey of Pittsburgh, Democratic national committeeman for Pennsylvania, for use in the primary in that state.

The Smith organization in Minnesota got \$1,200; that in North Dakota got \$1,500 and that in Maine received \$1,000.

Answering all questions freely, Governor Smith told the Senate Inquiries that he had made no personal effort to obtain the nomination at Houston; that he had made no promises of patronage and had contributed none of his own funds to the organizations formed on behalf of his candidacy.

## EASTMAN SCHOOL TO CHANGE ITS LOCATION

The Eastman School of Business, which for the past 45 years has been located at the corner of Mill and Washington streets, Poughkeepsie, will be removed to new quarters in the Marian building on Mill street. The building will be remodeled at a cost of \$50,000 and will accommodate 600 students when completed. It is expected that operation of the school in the new quarters will start in September.

A radical departure in the curriculum of the special business courses will take place when the school is started in September. The courses will be of one and two years' length with a high school education as a requirement. Enrollment dates will be in September and February. Steps will be taken to have the course adjusted by the Regents of the state. A correspondence course will also be given by the school and a \$100,000 newspaper advertising campaign is expected to be started.

John D. Marian is now president of the Eastman School of Business, Poughkeepsie, which he took over in 1926. Since he became its head the enrollment has increased 300 per cent, it is said. It is estimated that since its founding in 1859 more than 75,000 have been graduated from it.

## R. R. CROSSING ELIMINATION OBJECTED BY VILLAGERS

Residents of the village of Pawling, near Poughkeepsie, objected strenuously to the closing of a crossing on South street, there, at a meeting in the court house Wednesday morning. The New York Central railroad proposed that the crossing be closed making a dead end street of South street. N. M. Williams, assistant engineer of the public service commission, conducted the hearing at which Pawling residents declared that the closing of the crossing would be a great inconvenience. It was stated that the road was one of the original thoroughfares of the village, it being used before the railroad was built over it, and that an accident had not occurred there in 40 years.

## STEWART REFUSES TO COMMENT ON ROCKEFELLER

On board west bound twentieth century limited near Elkhart, Ind., May 19 (AP).—Speeding westward from New York city to Chicago, Colonel Robert W. Stewart, chairman of the board of the Standard Oil Company of Indiana, today flatly refused to comment on a statement by John D. Rockefeller, Jr., that he had asked Colonel Stewart to resign.

## Sequel Commission Named.

Albany, May 19 (AP).—Appointment of five members of the sequel commission for the celebration and observance of the campaign of General Sullivan in the war of the Revolution was announced by Governor Smith yesterday. The commission named by the governor included: Guy S. Comfort, Perry; William F. Leffingwell, Watkins Glen; Ford M. Dowell, Elkhart; Professor Charles H. Hull, Ithaca; and Mrs. Nellie M. Hewitt, Carthage.

## Knapp Juror Cited For Contempt

Albany, May 19 (AP).—An order directing David Main, a member of the Knapp jury, to show cause why he should not be punished for contempt of court was issued by Supreme Court Justice Ellis J. Staley today.

The order is returnable before Supreme Court Justice Stephen Callaghan in court here at 10 a. m. tomorrow.

The action of the court was based on allegation that Main during the deliberations of the jurors used obscene and profane language in the trial of the former secretary of state for grand larceny of a state census fund.

## Invited Guest Was a Bandit

Albany, May 19 (AP).—Because of a desire for companionship on the last lap of an automobile trip from his home in Salt Lake City to New York, Joseph Kramer let his automobile hire a Salt Lake City fireman's badge.

While at dinner in a downtown restaurant last night he learned that his companion at the table was going to New York, so Kramer invited the stranger to accompany him. A few miles south of Albany, the stranger pulled a pistol against Kramer's ribs and compelled him to surrender car, money and other valuables and a suit case filled with clothing.

## About the Folks

A son, William, was born to Mr. and Mrs. Edward Seely, 26 Fair street.

A daughter, Frances Lorraine, was born to Mr. and Mrs. Oscar J. Johnson of 54 Downs street.

Mr. and Mrs. Andrew Hummel of 16 Elmendorf street are receiving congratulations over the arrival of a son, born Wednesday, May 9.

The Rev. George C. Danegremont of Montrose, N. Y., was a visitor at Tuesday morning's session of the particular synod of New York. The Rev. Mr. Danegremont will be remembered as pastor of the Reformed Church of Flatbush and later at High Falls.

## POUGHKEEPSIE HIGH DEBATORS LOST TO TROY

The Poughkeepsie High School debating team lost to Troy High School in the up-state city Wednesday in a 2-1 decision on the question "Resolved, That Congress Adopt the Capper Resolutions," dealing with world peace measures. Poughkeepsie represented the affirmative.

Members of the Poughkeepsie team were John Griffiths, Seima Harter, Frank, Troy's team included Clair Hoffman, Helen Brown, Harry Schlichter, Hazel Shattuck, and Hollins and John Holligan.

Troy had debated the question previously, losing a decision to Albany High School.

## SAUGERTIES WIDOW WILL RECEIVE PENSION

Mrs. Mary E. Jones of Saugerties has been advised by Congressman H. J. Pratt that his bill to provide a pension for her has been signed by President Coolidge and is now a law, and her name will be placed on the pension rolls immediately.

Mrs. Jones is the widow of William H. Jones, who served in the Civil War with Company C, 176th New York Infantry.

## JESS PETTY FINED \$200 AND SUSPENDED INDEFINITELY

Chicago, May 19 (AP).—Jess Petty, \$10,000 pitcher with Brooklyn, was fined \$200 and suspended indefinitely today and ordered home by Manager Wilfred Robinson, of the Dodgers, for violation of the training rules.

Petty to date has participated in five games, winning one and losing four.

## HOPES CAROL WILL HAVE LEFT ENGLAND BY MONDAY

London, May 19 (AP).—Sir William Jaggard-Hicks, home secretary, announced in the House of Commons today that he hoped Prince Carol will have left the country by Monday.

## Linden Arrests Fredericks.

Joseph Fredericks, who was placed under arrest early this morning by Thomas Linden on a charge of reckless driving following a collision with a car on the Saugerties road, was arraigned before Justice Speers at the town of Ulster and on his plea of not guilty an adjournment was taken until Saturday at 10 o'clock. Bail in the sum of \$200 was supplied.

## Indiana Returns.

Indianapolis, Ind., May 19 (AP).—Returns from 2,565 out of 2,614 precincts in the state for president gave James E. Watson, 218,552; Herbert Hoover, 195,550.

## Knapp Juror Cited "Y.M." Campaign Now in Progress

The Maintenance Campaign of the Y. M. C. A. got under way Wednesday evening in splendid shape. Each division manager had practically every one of his men on the job and ready to go to it with all kinds of vim. The meeting was under the direction of William C. DeWitt, who was assisted by Charles Ramsey, the local president. The Holy Club of the Y. M. C. A. was also present and with songs and cheers added ever inspiration to the men to "put it over."

Secretary Porter was the first speaker and he made a name for himself with his brevity. In a few well chosen words he told the men that the splendid results that the Y. M. C. A. had secured during the past season was due to the work the men had already done in the past by securing the finances for the Association. He assured them that the making of the present campaign, a success would mean a better year for the "Y" in the year ahead.

Harry H. Flemming was the next speaker, a man who has been interested in the young men of this community for many years and is always ready to help. Mr. Flemming in his opening remarks referred to the radio address of S. Parkes Cadman of Brooklyn, and the man who is to address the annual meeting of the local Y. M. C. A. on the 21st of June. Last Sunday Dr. Cadman delivered an address that was not only inspiring but illuminating to the many friends of the world wide influence that this organization has created for itself by its unselfish service for the young men and boys of the world.

He said that the Y. M. C. A. was no longer an experiment but a necessity and that it is here to remain.

Mr. Flemming then continued to speak of the local Association, organized here in a Kingston Association, and a Roundout Association, over 50 years ago, and how that they had merged into the present Central Young Men's Christian Association, and had passed through the experimental stage and that they were here to stay. And furthermore that it was up to the group of men before him as to just how effective the work of the Association was going to be. But knowing that each and every one of the men there was a firm believer in the Association, its work and its ideals, he had no fear as to the outcome, for where men believe in an organization and have faith in it, that organization will succeed and those men will carry by their convictions the city with them.

Chairman DeWitt then introduced the Division Managers who in turn introduced their captains and their men.

W. S. Hopkins, the director of the Campaign was then introduced as the man who was well known to the Kingston men as a result of his work here last year. Mr. Hopkins then spoke of the work of the Y. throughout the country and emphasized the need of the kind of a work that was being done in Kingston.

Following the address he then told the men the mechanics of the campaign, and then the men chose their cards for their active work and started out immediately to "put it over," as Paul Zucca had them sing.

## ROCKEFELLER DEMANDS RESIGNATION OF COL. STEWART

New York, May 19 (AP).—John D. Rockefeller, Jr., has requested the resignation of Colonel Robert W. Stewart as chairman of the board of the Standard Oil Company of Indiana. His action followed testimony of Colonel Stewart before the Senate committee investigating the Naval Reserve oil leases.

Mr. Rockefeller in a statement making known the request, said he had taken that action because he had "lost confidence in Colonel Stewart's leadership."

In a letter to Colonel Stewart on April 27, the statement disclosed, Mr. Rockefeller called upon him to "make good the promise you voluntarily gave me some weeks ago that you would resign at my request."

A further letter quoted in the statement indicated, however, that Mr. Stewart might not resign without a fight.

The Rockefeller's holding in the Standard of Indiana are approximately 15 per cent of the total stock.

## FOG HOLDS BACK SPANISH AVIATORS

Serville, Spain, May 19 (AP).—With everything in readiness for a hop off to break existing duration and distance flight record, fog this morning prevented the Spanish fliers, Captain Ignacio Jimenez and Francisco Iglesias from starting.

At 10 o'clock they postponed their hoped flight tomorrow. The route of the flyers was unknown even to themselves and many think they will attempt to fly across the Atlantic to Havana, although the government has forbidden such a flight.

The official opinion was that the flight would be to India about 10,000 miles over India, Greece, Turkey, Persia, Mesopotamia and Rangoon.

## Linden Case Dismissed.

Thomas F. Linden, who was arrested Sunday by State Troopers, charged with speeding and reckless driving on the Saugerties road, was discharged by Justice Jennings of the town of Ulster Wednesday afternoon. The troopers withdrew the complaint.

## Bar Pays Tribute To Judge Betts

Adopted Memoranda Setting Forth His Attributes Which Will Be Presented To Supreme Court Next Monday—Attends Funeral In a Body.

Prior to a call issued by Philip Elting, president of the Lister County Bar Association, the members of that association met at the court house Tuesday afternoon to take formal action upon the death of Judge James A. Betts.

In the absence of Mr. Elting, who was in New York City, and of Judge Frederick Stephan, Jr., vice president, the meeting was called to order by John W. Eckert, who stated the purpose, and on motion of Andrew J. Cook, Judge Joseph M. Fowler was chosen chairman.

Judge Clearwater, chairman of the committee appointed by Mr. Elting to prepare a suitable memoranda for consideration of the bar, presented the following:

In the death of James Albert Betts, the Lister county bar loses a distinguished and honored member; the city, county and the state a citizen of the highest personal character, of the most industrious and exemplary habits. His long and illustrious career at the bar, his judicial career as surrogate and justice of the Supreme court demonstrated his possession of that unusual ability and wisdom characteristic of the exceptional members of our profession. Not only was he a lawyer, and a judge of distinctive achievement, but he devoted his energies and activities with equal success to those great fields of human endeavor, education and philanthropy, furnishing an example to the profession of the wisdom of an expansion of effort in unselfish devotion to the broad interests of humanity without compensation, save that which comes from the performance of duty well done.

Resolved, that we tender to his family our sincere sympathy and respect; that we request the court over which for so long he presided with such impressive impartiality to record this tribute to his memory upon its minutes; and that the secretary of the association forward a certified copy to his widow and his son.

A. T. CLEARWATER,  
G. D. B. HASBROUCK,  
V. B. VAN WAGONEN.

The memoranda, upon motion of Judge Clearwater, was adopted.

Judge Hasbrouck announced that the memoranda would be presented to the present trial term of the Supreme court on Monday of next week, at which time members of the bar who so desired would be able to pay personal tributes to Judge Betts.

The meeting then adjourned and the members of the bar proceeded to Judge Betts's residence to attend the funeral services in a body.

## LAKE KATRINE.

Lake Katrine, May 18.—Mr. and Mrs. Quick, Mr. Lane and Robert Menahan of Brooklyn were week-end guests of Mr. and Mrs. Barent Wilmot.

At the school meeting held last Tuesday, Copeland Gates was elected trustee in place of the retiring trustee, David Kieken. Arrangements have been made to purchase a piano for the school. Mrs. Frank Ford, the primary teacher, has been in charge of the school for some time and the place will be a great help to her in this work.

The Camp Fire Girls are progressing nicely with their play which will be given in the near future. It is entitled "Wobelo", the name being composed of the words work, health and love.

Monday evening about 70 members attended the regular meeting of the Grange and enjoyed the following program, which opened with a song, "Keep the Home Fires Burning" by the Grange. Articles on proper fertilizing were read by Arthur Osterhout and Graham Parish. Jokes by Mrs. F. Brink and Mrs. A. Miller. A sketch, "Hiram's Hired Man", by Mr. Midwest, Harold Young, Mrs. Midwest, Mrs. William Hooker, John Greenleaf Nitrogen, Horton Pierson, Storchack Potash, Henry Snyder, Colonel Hurrayup Phosphorus, Alfred Jones, Calcium Limestone, Herbert Finger, Duert, John Dimler and William Sweet Song, "Love's Old Sweet Song", by the Grange. A spaghetti supper followed, arranged by the May committee: Mrs. B. Wilmot, chairman; Mrs. Anna Miller, Mrs. John Wallace, Mr. and Mrs. Horton Pierson, Roy Cross, Miss Mantavanni, Mrs. George Clarke, Mr. and Mrs. Charles Auchmoody, Mr. and Mrs. James Forman, Donald Parish. A dance will be held at the hall on Friday, May 18, under the auspices of this committee.

# Always... a square USED CAR deal from the Buick Dealer

The Buick dealer is in business to stay. His future reputation depends upon his treating used car buyers fairly.

He wants to please used car purchasers because he knows that satisfied used car customers are prospective new Buick buyers.

The man who buys a good used car—honestly represented—at a fair price—receives splendid value in transportation.

In his enthusiasm for the car he has bought, and the value he has received, it is only natural for him to look upon the dealer as his friend.

The Buick dealer has many such friends because he represents the true condition of the used cars he offers for sale.

And that is good business—for the Buick dealer, as well as the used car buyer.

## News of the Day In Wall Street

New York, May 19 (AP).—First quarter net income of the Central Railroad of New Jersey is expected to be the best the road has reported since 1917, about \$560,000, or more than \$2 a share. Net income in the quarter last year was \$195,445, or 75 cents a share.

The country is in a new major business cycle characterized by frequent moderate corrections of particular aspects of business, as contrasted to old-fashioned swings which carried all business up or down, says the American Bankers' Association Journal.

Stocks of zinc on April 30 were 41,529 tons against 41,529 on April 1. The month's production was 55,745 tons.

255 tons, the American zinc institute reports. Shipments were 59,243 tons. Export shipments were 3,746 tons.

Structural steel orders the last week declined to 25,000 tons from 30,000 the week before. New inquiries were larger, 24,900 tons against 14,000 a week ago and 22,400 two weeks ago.

First quarter net profit of First National Pictures was \$146,228 after interest and federal taxes.

Copper sellers did a huge business the past week, virtually all of it on the basis of \$14.25 a pound, Connecticut. Zinc, though not particularly active, has commanded better prices. Lead and tin have been quiet. Engineering and Mining Journal reports. Silver has strengthened on the disturbed conditions in the Orient.

The big mistake Hollywood made was in not locating at Reno.

## FOUR ACT COMEDY AT ST. MARY'S MALL FRIDAY

St. Mary's Junior Dramatic Club will present "That Orphan" in St. Mary's School Hall, Friday night, May 11, starting at 8:15 o'clock. There will be dancing after the performance.

The children, after being coached for a number of weeks by Mr. and Mrs. Edward P. Weid, who have been responsible for past successes in the dramatic line at St. Mary's Hall, particularly "An Old-Fashioned Mother" acted by adults, are ready to put the play across in winning fashion.

"That Orphan" is a four act comedy procured from the Samuel French Publishing Company and will be enacted by the following cast:

Mrs. Tupper.....Marie Ward  
Mildred Allen.....Frances Finn  
Sophia Gibbs.....Elizabeth Brennan

## Used Car Prices Advance in the Summer!

Pledge to the Public  
on Used Car Sales

- 1 Every used car is conscientiously marked with its price in plain figures, and that price, just as the price of our new cars, is rigidly maintained.
- 2 All Studebaker automobiles which are sold as CERTIFIED CARS have been properly reconditioned, and carry a 30-day guarantee for replacement of defective parts and free service on adjustments.
- 3 Every purchaser of a used car may drive it for five days, and then, if not satisfied for any reason, turn it back and apply the money paid as a credit on the purchase of any other car in stock or on our cash. (It is assumed that the car has not been damaged in the meantime.)

HERE is a complete stock of good used cars—all in excellent mechanical condition and of standard makes. The entire stock is priced for quick sale and every car is tagged with the price in plain sight.

Under the terms of the famous Studebaker Pledge, you have five days' driving trial and on Certified Cars a 30-day guarantee of free service. You are assured complete satisfaction.

Come in today—while this stock is complete—for these used car bargains will not wait!

Certainly it is better to head off such funds corruption in advance. If it can be done—then to trail it laboriously long afterward. The Senate wants to try, and the need of the effort is rendered the more evident by the partly suppressed excitement and veiled criticism the announcement has caused.

## STAMP STICKUM.

A writer in the *Marion Telegraph* is holding back his favor from presidential candidates until he learns "where the various candidates stand on the matter of more and better postage stamp stickum." The one who comes out boldly and fearlessly for this crying need is the one whose banner he's going to hoist. He's getting tired of having letters come back marked "Return for Postage" when they've been stamped.

This same complaint about postage stamps is familiar all over the country, from Canada to Mexico and from coast to coast. On the other hand, anyone who ever put a stamp on an envelope crooked and tried to straighten it at once, knows how quickly and perversely a stamp can stick fast.

There are some who defend the stamp stickum, saying that it only fails to work when too much moisture is used. A moist sponge or damp cloth that seems almost too dry to the ordinary stamper is more satisfactory than a freshly wet article. Perhaps that is why licking a stamp is more successful—however unhygienic—for the expert stamper than some of the stamp-moistening machines. When too much water is used with the latter, the stickum certainly does disappear.

Possibly it is not a question of more glue, but of a different quality. As for flavor, let it be as nasty as possible. Something should be done to discourage stamp-licking.

## CANDIDATES AND ISSUES.

All the observers seem to agree that California's vote was decisive and that the nominations of Hoover and Smith are now certain. What the paramount issue will be—if any—is not so certain. But if California is the real test, the vote there ought to throw some light on this question, so far as the issue the Democrats may elect to emphasize is concerned. It has been predicted that their chief issue will be Republican corruption, yet in California Senator Walsh, who exposed the oil scandals, and Senator Reed, who exposed the campaign fund scandals, together got only 40 per cent of the Democratic vote and 60 per cent of it went to Governor Smith. Does this mean that the Democrats of the "decisive" state are inclined to make Volsteadism the paramount issue, and if not, what does it mean? There are the only two issues a large number of the people now appear to have in mind.

Whatever the answer to this question, it at least seems certain that we are to face the spectacle of a Presidential contest between a Quaker and a Catholic, with much repudiation of the American principle of religious liberty inevitably involved. Merely because of his membership in the Catholic Church Governor Smith will be assailed by a class of Protestants within and without his party. Nor can Mr. Hoover expect to escape altogether, our jinxes and "big navy men" naturally being disinclined to relish the choice of a President whose church condemns war and war service under any circumstances. Whatever the result at the polls, this year's Presidential campaign ought to put an end to the religious issue in this country, where from the outset it has been in conflict with fundamental American principle.

## ERSKINE'S CHALLENGE.

So far as has been noted, no prohibitionist minister of the Christian Church has replied to an article contributed to the *New York Herald Tribune* of February 5 by John Erskine, the celebrated author and Columbia University professor. In which he declares that prohibition and Christianity are based on contradictory ideas, and that if a large number of earnest Christians sincerely believe in prohibition, "it must be that unconsciously the doctrines of Christianity have been

Erskine's challenge is a challenge to the Christian Church. It is a challenge to the Christian Church to prove that its doctrines are not contradictory to the principles of prohibition. It is a challenge to the Christian Church to prove that its doctrines are not contradictory to the principles of prohibition.

## THAT BODY OF YOURS

BY James W. Barton, M.D.

(Registered in accordance with the Copyright Act)

## CAUSE OF SLIGHT FEVER.

One of the mistakes that is often made in the household is the use, or rather the abuse, of the clinical thermometer.

If there is any slight rise in temperature, one or two degrees perhaps, immediate steps are taken to bring the temperature down to normal.

As a matter of fact, as Dr. Sajous points out, this rise in temperature is really a sign that the body is on the defensive and is manufacturing extra heat to fight off some ailment or to keep that ailment within safe limits.

Fevers or increased temperature is due to overactivity of certain glands which thus increase the activity of all the tissues of the body so that they can overcome waste matter, poisonous or harmful products, harmful organisms and so forth.

Thus you can see that this increased heat is Nature's way of taking care of poisons, or fighting off invading ailments. So that if the thermometer shows a rise of temperature of 101° or 102° F. it should not be a source of worry, as it is simply Nature's way of letting you know that trouble is brewing and that you should be on your guard.

This doesn't mean that you should disregard any rise in temperature. In fact it is always good sense to get to bed and send for your doctor when there is any increase in temperature at all. It doesn't mean either that you shouldn't help Nature, but let "Nature" take its course, as you hear said so often.

In fact the first thing your doctor will do will be to try and help Nature, not by giving medicine to reduce the temperature, but by giving medicine to remove poisons from the blood, usually by means of the intestines or the kidneys.

Not does this mean that the temperature should not be watched carefully. Dr. Sajous tells us that high temperature is Nature's method of defence up to 104½° F. Beyond that is not safe and your doctor will endeavor to keep it within safe limits.

My thought then is that you shouldn't try to reduce temperature by drugs, and continue about on your feet, but to get to bed at once, thus giving your heart every chance to withstand the extra calls made upon it. And if your doctor gives you medicine to get rid of wastes from the body, instead of a fever reducing drug, remember that he is simply helping Nature instead of hindering her.

## Coast to Coast Skater Here

Peter Gonsiewski, famous coast to coast roller skater, arrived in this city this afternoon at 2 o'clock on his return trip from the west coast to the east and back in competition for a \$25,000 prize. Gonsiewski started on his return trip Monday after his skates were inspected by M. J. Cruise, city clerk in New York. After reaching Yonkers his skates were unlocked.

The skater arrived in Poughkeepsie Wednesday evening where his skates were again unlocked. Leaving Poughkeepsie this morning at about 11 o'clock Gonsiewski had tough going with the torn up roads from Highland to here. If the going is as bad to Kingston he will have a tougher job to reach there by tonight. It took him about three hours to make the journey here from Highland.

A number of companions are with the skater. They are traveling by automobile. He expects to be back in Los Angeles September 30.

## Local Death Record

An anniversary Mass will be celebrated Friday morning at 9 o'clock at St. Joseph's Church, Bristol, Conn., for the late Mrs. Rose Curran of this city.

## Woodcliff Opens May 19.

Woodcliff Park, Poughkeepsie, will formally open for its second season on Saturday, May 19. There will be a big parade and several unusual features to mark the occasion. There will be a dance pavilion at the park as was conducted last year. It is said that a \$50,000 swimming pool will be constructed at the park.

## His Ambition

"Ambition," said Norbert Quinn, "is a funny thing. My friend, Christopher Money, prince of fantasy and Twentieth century Elizabethan, confided that he wished that he could draw and also that he could write successful plays."

"Quite in contrast is my little friend William, who is saving up money to buy an airplane. 'It's a very worthy motive,' I told him. 'You are quite an ambitious boy.'"

"You bet, I am," William agreed and added, "and, I want to fly over Bobby Willet's yard and drop down bricks on him."

## Clara Bow

One of the handsome women of the "movies" is lively Clara Bow. Miss Bow was born in Brooklyn. At one time she was the winner of a magazine beauty contest. Later she was given a screen test and made good. She has been seen much to the satisfaction of everybody in a number of the most prominent pictures. Miss Bow is five feet two and one-half inches tall, weighs 109 pounds and has auburn hair and brown eyes.

## MISTAKES

NO MAN ever lived who did not make mistakes. To err is human. Some one has said that half the world is busy correcting the mistakes which the other half makes. If we were all infallible, about half of the world's work would not have to be done.

Making a mistake may not be a very serious matter. The fatality of a mistake lies in two directions.

First—An unwillingness to acknowledge the mistake we have made. Trying to cover it up by lying; deception in a hundred different ways which can be resorted to, is cowardice of the worse sort. When you make a mistake acknowledge it, no matter how humiliating it may be. Be honest about it. You will then win the admiration of friends in spite of your stupidity. You will also avoid the sneer and distrust of enemies.

Second—Do not repeat a mistake. A mistake may be a curse turned into a blessing. It may save many a future hazard. Only a fool repeats the same mistake. Doing a thing in the same way somebody else did it, right or wrong, is blind folly. Work out your own salvation in terms of your own experience. Do not be afraid of a mistake which may occur in that experience. Be afraid of not frankly acknowledging it and not profiting by it.

To make mistakes is pardonable, but to make them over again is a slip backward and to keep on making the same mistakes means failure.

Experiments are performed in order to ascertain the truth. Mistakes are like experiments. He would be a poor scientist who kept on experimenting for a truth he had already found. Applying the truth discovered, in a practical way, is the better part of a wisdom. Making constructive use of the knowledge which a mistake has brought to us not only enables us to avoid repeating it, but to greatly profit by our experience.

## SUPERSTITIOUS SUE

## SHE HAS HEARD THAT—

One version of the daily oracle is to put a petal for each line of this verse—

"He loves me,  
He don't;  
He'll have me,  
He won't;  
He won't if he could,  
But he can't."  
and the last petal you pull is your fate.

Which?

An English magistrate ordered a man not to speak to his wife or parents but to speak to him for two weeks. Problem: Was the man convicted or acquitted?

SUCH AN ALBI FROM THE BRAINY ALEC SMART, AND MR. GOLDGRIP. AND YOU EXPECT ME TO BE BUBBLING OVER WITH EAGERNESS TO FORGIVE AND FORGET THE PAST.

FOR THE NINE HUNDREDTH TIME, I ASK YOU WHY HOLD IT AGAINST THEM, WHEN IT WAS ONLY WHO DID THE DIRTY WORK.

FOR ONE THING, I'M NOT SO SURE THEY'RE INNOCENT. FOR ANOTHER, I HAVEN'T FORGOTTEN THE HUMILIATION WE WENT THROUGH, TRYING TO CONVINCE YOUR SO-CALLED FRIENDS IT WASN'T YOU WHO GOT THEIR MONEY.

THEY HAD NO HOLLER COMING. WE REPAID THEM EVERY CENT THEY LOST IN PETRIFIED GAS!

THAT'S ANOTHER THING. ASIDE FROM THE GREY HAIRS IT GAVE ME, I AM STILL OUT THAT MONEY. I SHOULD GO THROUGH ALL THAT, SO I COULD GRAB THEIR HAND AND SAY... I FORGIVE YOU.

WE'LL GET ALL THAT JACK BACK, AND PLENTY MORE BESIDES.

HOW WHEN WHERE!

I TOLD YOU, GOLDGRIP DON'T GO INTO DETAILS. ALEC WILL EXPLAIN THE DEAL LATER. BUT HE DID SAY THE KALE WILL BE COMING IN SO FAST, SOON, IT'LL BURN OUT THE BEARINGS OF OUR ADDING MACHINE KEEPING TABS ON IT.

## DAILY RADIO PROGRAM

Friday, May 11.

Philadelphia composers will supply the selections for a concert to be broadcast by WGO at 10 o'clock Friday night. The artists will present this unique feature: a symphony, concerto, cantata, tenor, baritone, violinist, pianist and cellist. At 8:30 this same station has arranged for an appearance of the Verde Brass quartet and at 9:30 the Master Singers and their players will again entertain listeners of the Philadelphia station. A Negro spiritual sung by a Negro quartet will be WEVA's offering for 10 o'clock. At the same time WEAF and the Red network will radiate the appearance of the Philadelphia station. Vocal and instrumental soloists and ensembles will congregate before the microphones of WEAF and the Blue network stations on the Magic Isle at 9 o'clock, to present the Magic Isle musical review. Other highlights will be the appearance of Bob Sherwood, the last of Barnham's clown, during Dixie's Circus through WJZ and the Blue network at 7:30; the Fro-Joy hour with Henry Clancy, tenor, through WGY at 8, and a concert in celebration of National Music Week by the woman's division of the Atlantic Chamber of Commerce through WSH at 12:45.

Wave lengths in meters on left of station title, kilocycles on the right. Times are Eastern Daylight Saving and Eastern Standard. Black type indicates best features.

Do You Know  
What a Woman of  
30 Should Weigh?

It all depends on her height of course.

If she is five feet seven inches in height she should weigh according to the best authorities 142 pounds.

If she is five feet five inches her normal weight is 134 pounds.

If she is five feet three inches she should weigh 127 pounds.

It's dangerous to be always striving to grow thin—the Adirondack Mountains and health resorts everywhere are filled with health shattered women who will tell you that it doesn't pay to be too thin.

That is why so many thousands of underweight men and women are putting their faith in McCoy's Tablets.

McCoy takes all the risk—Read this ironclad guarantee. If after taking 4 sixty cent boxes of McCoy's Tablets or 2 One Dollar boxes any thin, underweight man or woman doesn't gain at least 5 pounds and feel completely satisfied with the marked improvement in health—your druggist is authorized to return the purchase price.

The name McCoy's Cod Liver Oil Tablets has been shortened—Just ask for McCoy's Tablets at any drug store in America.

Detroit—Mayor Lodge has a bright young nephew who has shown so much skill in aviation that the mayor finally has taken a ride aloft with him. The name is Lindbergh.

Chicago—Bert Acosta's loop the loops are too much for the city with the famous loop. Because of hair-raising stunts the use of the municipal airport is denied him for ten days.

New York—Cripples who make themselves bread-winners, in the opinion of Gene Tunney, show more real courage than any hero he knows—home run hitter or champion boxer—does. He gave his views at graduation exercises in a trades school for the disabled.

Newark, N. J.—Walter Johnson will be tickled to death if his three boys break into baseball. "It's good for all boys," he said over the radio. "It shows them the ups and downs and brings out their qualities."

Cambridge, Mass.—While fulfilling the obligations of a good citizen Clarence De Mar is getting in condition to run for Uncle Sam abroad. He's on the jury in the county criminal court and commutes the way he propels himself in a marathon.

New York—Elinor Glyn's apartment has a color scheme based on her theory that one's moods respond to the vibrations of hues around one. For instance the writing room is in turquoise; it makes the thoughts brilliant. Her secretary's room is the hue of the darkest part of the American beauty rose, because the secretary is young and beautiful and should be surrounded by love.

Rome—"Don't Americanize young girls," pleads Osservatore Romano, Vatican organ, in reference to Papal opposition to Fascist athletic drills. "Modern competitions of such nature among women come from Anglo-Saxonism."

New York—Having paid \$4,000 for a gift, Peggy Joyce is now able to ride around in her foreign car. The payment got it out of hock. It had been seized, because the donor, John T. Locke, broker, owed money on it.

Budapest—The Hungarian Government is to erect a home for persons tired of life. The increasing number of suicides is the reason.

New York—Baron Giorgio Mario Surani—he insists the Italian title is real—is out with an explanation why folks waited in vain at the church to see him and Winifred Barry, actress, use the marriage license they had obtained. He admits he's sick. He loves Mildred Monette, dancer. She says it happened long before he met Miss Barry.

#### When Love Is Young

"Love is much the same, the world over," said Charles Young of the Peeking Gazette.

Loa Sing, a pretty Chinese girl, found very much to her liking the dapper young Englishmen who worked in the banks and the counting houses along the Bund. Hence, one afternoon, she returned late for supper.

"Where hast thou been, pearl of my bosom?" asked her mother snarling. "Merely walking in the park," replied Loa Sing, demurely.

"And with whom hast thou been walking, petal from a golden lotus leaf?"

"With no one," replied the maiden, striving to hide the blush that suffused her velvet cheek.

"Then," demanded her mother, "how is it that thou has brought home with thee a cane, instead of thy bamboo parasol?"—Los Angeles Times.

## The Merry Month of May

May, the "Merry Month," is the prelude to summer. It is the month in which to prepare for the season of outdoor sports, of motor trips, of picnics, and of housework reduced to a minimum.

Yet, housework must be done! So why not let electricity this year do more of it than has been your custom in the past? A little thought and preparation will give you a summer freer from household work and worry than you have yet experienced.

For, with adequate wiring, enough switches and outlets, and with such household electric appliances as fans, refrigerators, washing machines, ironers and vacuum cleaners, your summer can be cooler, cleaner, and more carefree and comfortable than ever before.

### Hercules Defeated By P. O.-City, 7-6

**Score and P. O.-City Take Game.**  
7-6—Peterson and Cramer Hit for Three Runs.

In a game featured by rallies by both teams the P. O.-City took out the Hercules, who made their home in the Industrial League, 7-6, at the Athletic Field Wednesday evening. The Hercules started the rally in the last inning, scoring three runs and they had the third run on third base, but could not produce the necessary wallop.

Ira Mower and Peterson featured in this rally, getting a double and triple respectively. Mower also added two singles to his collection for the evening. Hercules was the only other player to get over one hit, hitting safely three times. Cramer knocked a triple for the P. O.-City.

Chick Mower, Hercules' pitcher, kept the P. O.-City's seven hits scattered, but was the victim of poor support. Watson Wheeler opposed him on the mound and was hit freely. Hercules opened the game with a single to left field. Bush followed with another one to right, and A. Mower hit into a double play, Wheeler to Robins to Lynch, Hercules advancing to third base, scoring a moment later on I. Mower's single to center field.

The P. O.-City took the lead in their half of the first, scoring two runs. Davitt lined to right field for two bases and Schwab walked. Robins hit to short stop, Avery muffed a good pick-up, and had an easy double play in sight, but threw to the first baseman, who misjudged the ball. Davitt scoring on the play. Meeker scored Schwab with a single to center field.

Davitt gave the Hercules a life in the third inning. He missed Chick Mower's grounder, who went to second, and tallied on I. Mower's single. Davitt made his second error of the inning and I. Mower's scored. On a walk, single and an error the P. O.-City scored two more runs in their half. They increased their lead to six runs in the fourth inning and added their final run in the sixth, which proved to be the winning run.

Hercules' single, Bush's free pass, I. Mower's double and Peterson's triple resulted in three runs for the Hercules in the last inning.

Chick Mower, besides pitching a good game, played a nice fielding game.

Cramer's triple should have went for a home run, but he was satisfied to remain at third base when he reached there.

Davitt redeemed himself somewhat for the two errors he made when he picked up a liner which Johnson knocked down and got his man at first.

Schillings and Shapiro & Rubin meet Friday evening.

### Faculty Beats Junior Varsity

Scored four runs in the first inning, one in the third, four in the fifth and two in the seventh, the Kingston High School Faculty defeated the Junior Varsity 7-6, at the Athletic Field Wednesday afternoon.

The Faculty got off to a flying start in the first inning. Jimmie Maroon walked, one over the left field fence, which went for a home, and Culver hit the ball for a single to center. Burgevin then waded the ash for a double to left on which Culver came home. Bruhn reached first on a fielder's choice. Kias hit to Max Adachefsky. On this Max tried to get Burgevin, who was headed for third. Burgevin hit the dirt too quick and was safe. Bruhn then crossed the plate which ended the scoring for that inning. It looked bad for Wilbur, who was then on the mound for the Junior Varsity. These three hits and four runs furnished a poor beginning.

**Junior Varsity Battles in Second.**  
Burgevin really had one bad inning, but his support was poor. Woodward committed three errors and Maroon misjudged a fly in center field. Although Brennan was the only man to get a hit, who faced Burgevin in that inning, four men crossed the rubber. Spevack hit to Woodward and he fumbled the ball. Brennan then came through with his safety and Spevack sprinted to third. Kilhouse then hit a high one to Maroon. It was too high for Maroon misjudged it. On this error, Spevack and Brennan scored. Smith and Miller both hit to Woodward which allowed him to add two more errors to his name. Wilbur scored on Pretsch's hit. The score now was tied and Gaddis was on second, due to a wild pitch made by Burgevin which hit Gaddis in the arm. There were two downs when Mohr came to the plate and he flied out to Maroon in center field.

**Faculty Takes Lead in Fifth.**  
Cullum began the inning with a double to left. Culver hit to Spevack which was fumbled and Cullum moved to third. The Faculty batters kept trotting out of the dugout, getting ready to hit. Bruhn banged one past Gaddis on which Cullum and Culver scored. Kias patted a high one to left which was gathered in by Mohr after a long run. Schornstheimer scored on Pollock's hit to Gaddis. Kenny hit a high one in back of home plate which was taken by Smith.

Strickland's pitching did not have much effect on the hard hitting Faculty. He was replaced in the sixth by "St" Saunders who held the Faculty to two hits.

**Extra Seats for Armory Bouts**

The latest concerning the American Legion boxing bouts to be held at the armory, under the auspices of the 156th Field Artillery, Friday night, May 11, is that the promoters will have to arrange for a greater number of seats than usual. Tickets are in great demand and the agencies here, in Newburgh and Saugerties are busier now than previous to any scraps held in the armory this season.

Tom Murray, "the Tex Rickard" of the American Legion, who works in connection with Jimmy Ambrose, matchmaker for the armory bouts, has had calls from Newburgh for an unusually large number of tickets. It is predicted that 500 fans, followers of Jack "Red" Moshier of Newburgh, will accompany him here.

Moshier is scheduled for eight rounds in the main attraction with Willie Herman of New York city.

Joe Vosdick of Saugerties, who will meet Frank Ponzo in the semifinal of eight stanzas, is said to have enough rooters lined up for the scraps to fill several busses.

Local fans are advised to get their tickets before the rush at the armory door Friday night.

### Tagging Major League Bases

(By The Associated Press.)

With the promise of better weather in the east today, the American League stood ready to join the National in a continuation of the inter-sectional warfare which has been waged on the two pennant fronts for a week. Rain and cold yesterday prevented action in the American League sector, where the Yankees and the Indians are engaged in a struggle for the lead, but teams in the senior circuit continued the west with their battles.

The feature engagements of the afternoon saw Virgil Barnes pitch the Giants to a 6 to 0 victory over the Pirates in a game where the lead of the league was at stake and found Buzz McWeeny and Charlie Root locked in a rare pitching duel in Chicago. The Brooklyn pitcher yielded to the Cubs, 2 to 1, in the twelfth.

After pitching magnificent ball for eight innings, McWeeny skated on thin ice from the ninth to the twelfth. A hit meant the ball game at almost any time in this period, and he finally yielded it to Gonzales. Webb opened the twelfth with a double and advanced on Hack Wilson's sacrifice fly. Hobbs then called for the old army game and two men were passed to make a play possible at any base. Gonzales spoiled this fine strategy with a Texas leaguer to center.

The victory marked the second straight for the Cubs over Brooklyn, and gave Charlie Root his third success of the season.

Virgil Barnes gladdened the heart of John McGraw by the craft of his curves against the Pirates. The Giants, still shy two regulars through influenza and injuries, presented a patched-up fighting front, but Barnes did so well that almost any sort of backing could have won for him.

Almost from the start it seemed to be only a question of how long it would take the Giants to get a run from Joe Dawson. As the game was played they got two in the second and two in the fourth off Dawson and two more in the eighth off Young Brame, his relief.

Barnes pitched hitless ball for five innings, and gave only five safe

Endeavor is reminded of the business  
meeting and social to be held on  
Friday evening at 7:30 o'clock.  
After the business an evening of en-  
tertainment will take place.

Community services will be held  
in the M. E. Church this week. The  
Rev. J. H. Smith will have charge of  
the services of song. The subject  
chosen by the Rev. C. Van Tol will  
be appropriate to the day, "The  
Mother's Influence." Every mother  
is asked to be present and every  
young man, young woman and child  
is asked to be there. Let us give  
"Mother" full honor upon this day.

The choir of the Reformed Church  
will meet at the parsonage on  
Thursday evening.

Mother's Day will be appropriately  
celebrated at the Reformed Church  
on Sunday. Services will be held at  
10:30 o'clock. The theme chosen by  
the Rev. C. Van Tol is, "Honor Thy  
Mother." Let us make this family  
day at our church. Father, mother  
and children, let us be found in our  
place as a group to give our mothers  
their due. The Sunday school will  
meet at 11:45 o'clock under the  
leadership of L. D. Sahler.

"Jesus Enters Jerusalem" is the  
subject for study. Christian En-  
deavor convenes at 7 o'clock. Mrs.  
William Roosa will be the leader.  
The topic is, "Home Life a Test of  
My Christianity."

Dr. James Cantine gave a very  
vivid description of the Tercenten-  
nary Pageant held in Mecca Temple,  
New York, Friday last. The Chris-  
tian Endeavor thank Dr. Cantine for  
his message.

The Community Club will meet on  
Friday evening, May 18. This will  
be the last meeting previous to the  
summer vacation. Ladies' night  
will be observed and the Entertain-  
ment Committee consisting of L.  
R. Conner and Jason Roosa  
have a real treat in store for all.  
Don't forget the date, May 18th.

the M. E. Church will be held at  
2:30 p. m. The Rev. Smith will  
preach a Mother's Day sermon,  
"Christ's Mother and Ours." Mrs.  
Smith will give the children's story.  
The choir will be assisted in render-  
ing their Mother's Day music by the  
Stone Ridge choir. Let every one  
come and bring a friend. The Sun-  
day school will convene at 3:30  
p. m. Elmer Krom, superintendent,  
will be in charge.

Plans are under way for an enter-  
tainment to be given in the Grange  
Hall at Stone Ridge Tuesday, May  
22, at 7:30 Standard Time. An in-  
teresting program is being prepared  
by a committee. Refreshments will  
also be served. Keep this date open  
and come.

We Deceive Ourselves

We escape from the bewildering  
multiplicity of specific phenomena in-  
to the deceptive regularity of scien-  
tific systems, from the harassing rid-  
dles of infinity into the towering sym-  
bols of the divine; and thus we con-  
stantly seek to turn away from the  
chaotic truth and we take flight into  
the deceptive solace of a world which  
we arrange to suit ourselves.—Arthur  
Schnitzler in Vanity Fair Magazine.

## Art Treasures Found

### Under Italian Cities

Almost any Italian public improve-  
ment or building construction which  
involves excavation is likely to turn up  
archaeological curiosities, if not treas-  
ures. This is particularly true of an-  
cient centers, like Rome or Naples,  
where one community lives on top of  
what was the site of an earlier com-  
munity. Beautiful vases were turned  
up by workmen when Rome's stately  
Via Veneto was repaired recently.

A teamster engaged in carting away  
earth for a port improvement at An-  
cona found a collection of valuable  
gold coins. Heavy rains in recent  
months brought to light a magnificent  
Roman mosaic at Gergenti, near Nap-  
les. The mosaic was originally dis-  
covered in 1864, but was covered up  
"to avoid spoiling the street."

It was forgotten until the rain re-  
vealed it as a rare and beautiful work  
of art. It has now been lifted and  
transported to the archeological mu-  
seum at Naples. The mosaic consists  
of a central square 7 feet 7 inches by  
555 feet 10 inches, decorated with geo-  
metrical designs, rosettes, stars and  
vividly tinted yellows, reds and blues.  
The mosaic weighs four tons and mea-  
sures 200 square feet.

## Wise Man Said, First

### Be Sure You're Right

Before we pride ourselves upon that  
courage which makes us speak rather  
than to preserve that silence which we  
are so often advised is golden, let us  
be very sure that our convictions are  
worthy of the courage of which we  
boast. In the first place, are they con-  
victions or merely slogan expressions  
which we have encouraged ourselves  
to regard as beliefs? Have we thought  
about them profoundly? Have we  
taken the trouble of investigating the  
roots from which they spring? Have  
we made them part of us through ob-  
servation, experience and a prayerful  
desire to know what is truth and there-  
after to be loyal and vigorous in our  
support of it? Have we any reason  
to be sure we are right before we  
scream out our confidence upon the  
households? Perhaps, a little more hu-  
mility as regards one's convictions  
might not be so bad after all. To be  
modest and reserved at times requires,  
perhaps, even a higher grade of cour-  
age than to strut about and shout and  
proclaim ourselves to be the heroes of  
the world.—Elizabeth Marbury in De-  
lineator.

## The Dogmatic Martyr

When I believe something, I never  
attribute the least dogmatic signifi-  
cance to my belief. That which I call  
my faith is merely an indication that  
for me, with my own personal apti-  
tudes, experiences and mentality, a  
certain particular explanation seems  
to dispose most plausibly of a certain  
particular phenomenon. It is by no  
means an indication that I should be  
prepared to face death for my be-  
liefs, or in other words, to prove that  
my individual experiences have a uni-  
versal validity and my individual ways  
of thinking should be shared by every  
one. Martyrdom always shows the  
intensity of our beliefs, never their  
justice. We cannot prevail upon oth-  
ers to share our faith. At the very  
best we can only try to convince  
them of our willingness to be mar-  
tyred.—Arthur Schnitzler, in Vanity  
Fair.

## Eskimo Lamps

It is believed that the Eskimo lamp  
was invented before its possessors  
emigrated from their original home,  
which was probably farther south  
and near the sea coast. But the  
form of the lamp becomes more spe-  
cialized the higher the latitude is.  
The lamps of southern Alaska have  
a wick edge of 2 inches, while those  
of Point Barrow and northern Green-  
land have wick edges of 17 to 36  
inches. The lamp is employed for  
melting snow and ice to obtain drink-  
ing water, warming, drying skins  
and in the arts. It is also a social  
factor and the sign of the family  
unit, each head of the family having  
his lamp.

## Mark Twain a Believer

Mark Twain (Samuel Clemens) was  
not affiliated with any church or re-  
ligious organization. He was what is  
usually called a "free-thinker," that is,  
he did not accept the Scriptures as in-  
spired or authoritative spiritual writ-  
ings. He was often accused by his  
enemies of dealing with sacred things  
in a somewhat irreverent manner. Up-  
on one occasion Mark Twain wrote:  
"I have never seen what seemed to  
me an atom of proof that there is a  
future life. And yet—I am strongly  
inclined to expect one."—Pathfinder  
Magazine.

## Diamond Choir

There's still a laugh in this be-  
lated story of Pola Negri. Among  
those who greeted her on her arrival  
in this country were some members  
of the Los Angeles baseball team.  
They tried to explain the game to her,  
telling of the nine men on a side and  
so forth. Finally Miss Negri turned  
to one of them and asked: "What do  
you play?"  
"Third base," was the reply.  
"Mr. what a deep voice you must  
have!"

## MOVES AGAINST MAIL ROBBERS

Post Office Department Urges That Crime Be Made Capital Offense.

Washington.—Challenged by a criminal element whose boldness and vicious disregard for human life is unparalleled in the history of the service, the Post Office department has launched a counter offensive, and has caused to be initiated legislation to make armed robbery of the mails—or even an attempt at armed robbery—a capital offense.

Twenty-five years' imprisonment is the maximum penalty now, a punishment held inadequate in an era that has seen the operations of the underworld reach new bounds. At the instance of Postmaster General New, a bill has been introduced by Representative Kelly (Rep.), of Pennsylvania, to provide a life sentence or death penalty, discretionary with the court, when any guardian of the mail is wounded or has his life put in jeopardy with a dangerous weapon in an assault on the mails.

Inasmuch as it would be necessary that an actual homicide be committed to invoke the extreme penalty, the law, as contemplated, usually would throw into the category of capital offenses all cases where force was used, constituting one of the most radical steps ever proposed by federal legislation, and putting a crime against the mails on a par with treason.

**Bills Faces Opposition.**  
In sponsoring the bill Mr. Kelly is anticipating some opposition, because it is so drastic, but he is planning to make a vigorous fight and is hopeful of getting it through the present session of congress.

As he points out, there are state statutes in this country which make armed robbery an offense punishable by death, and in European countries, the inviolability of the mails is protected by the same rigid safeguard.

The new bill also would mandatorily increase the penalty for those robberies where there was an actual employment of weapons, with a flat ten years for the first offense, and twenty-five for a second, where now anything along the graded scale up to the maximum may be applied.

The actual move toward obtaining the death penalty for mail robbers is the result of two years' effort on the part of Mr. New.

In his annual report for 1926 the postmaster general, stirred by fourteen major robberies in the preceding twelve months, recommended the step. Again, in his last annual report, renewing the recommendation, he declared that "the necessity for action in this direction is forcibly indicated by several cases which were brought to a conclusion during the last year," a period which saw eleven robberies.

**Hold-Up Speeds Action.**  
It was not, however, until the Grand Trunk train robbery near Chicago recently that definite action was taken. Then Representative Kelly, called into conference with Mr. New, agreed to foster the desired legislation, and at once drew up his bill.

In coming to congress with a plea for remedial action the Post Office department is amply fortified with facts and figures, particularly as they relate to the last seven years, which have witnessed the operations of such desperadoes as Gerald Chapman, the three D'Autremonts, and bandits of lesser note, who have succeeded in looting the mails of approximately \$17,000,000, in about 100 of the so-called "major robberies."

These are made up of lifting of mail trucks and mail trains. In them machine guns and bombs have been used indiscriminately by the bandits; at least a dozen killings have resulted, and while tireless postal inspectors have succeeded in recovering, in round numbers, some \$10,000,000, there is about \$7,000,000 "profit" for some one still outstanding, and likely to remain that way.

**Postal Men Slain.**  
Some of the men slain were postal workers; peace officers and trainmen made up the rest.

Under the present situation, there is divided authority when a homicide is committed in connection with a mail robbery. The government can only assume jurisdiction in the robbery itself, while the state courts take over prosecution of the homicide which is not covered by federal statute.

Obviously, it would be beyond the bounds of reason to make an effort to have each state pass a law prescribing death for mail robbers, and a federal law, therefore, would be the logical way to handle the matter.

There is another serious defect in the present law also, and that is the ability of convicted bandits to gain their freedom on appeal bonds. When gangs are organized as they are today, with unlimited resources at their command, it is a difficult matter to set a bond that cannot be made, and appeals, always tedious, allow ample opportunity for the bandits to pursue their calling while awaiting final disposition of their cases. And, as it sometimes happens, this opportunity is seized with gusto to raise funds to put up a fight in court on the original charge.

## Confessed Firebug

Is Given 20 Lashes

Washington, D.C.—William H. Wales, thirty-two, was pleaded guilty in General Sessions court to setting fire to the home of Gov. DeLoach, near Washington, D.C., for setting fire to the home of the late Gov. DeLoach, near Washington, D.C., in the fall yard of the New Castle county workhouse.

The whipping was administered by Warden Elmer J. Leach in the presence of ten spectators. The lashes, according to the authorities, were light and caused no apparent physical pain to the prisoner.

In addition to the whipping Wales will serve five years and eleven months in prison. He was also ordered by the court to pay \$5,000, twice the value of the property destroyed.

## Japanese Log Recalls

First Voyage to U. S.

Kinjo, Japan.—The oldest log book in Japan, concerned with the first official Japanese voyage to America, is soon to be installed in the museum of the Kinjo Naval Academy here. The log was recently found in an old privately owned library.

Brief notes in the log describe a 44-day voyage made to San Francisco by the Tokuzawa Shogun's envoys to the United States. The entries were made partly in English and partly in Japanese. Of the arrival in America and the Japanese impressions of the foreigners, the log relates:

"American officials receive us. Paralytic-like melody of music comes forth from somewhere."

"Americans, though barbarians, are found more mild-hearted and sympathetic than the Asiatics. Is this just because America is a new world?"

"Served fried shark in a foreign style restaurant. It is highly delicious, but it caught fire at last. The flames were suppressed instantly. Had it been inside a Japanese house the whole building would have been ablaze. But the house was built of stone. The Westerners seem to make better use of things for more practical purposes than the Easterners."

The writer of the diary is said to have been one Koshu Nagao, the first Japanese to cut off his queue or "topknot." He later opened an English language school in Japan.

**Eleanor Gunn Says**

New York—A very smart steamer suit made of white angora bound with bright red braid and striped with green, red, and white, topped by a red felt hat.

The white woolen turn-over socks worn from the Riviera as being smart for tennis and golf are also very smart ship.

The Basque beret, or little felt hat, is very smart for the seafarer.

Jersey weaves and knitted costumes generally are travel proof against creasing, and are therefore smart.

Chartreuse, lime, and light greens generally were conspicuous on a ship carrying many women with a beautiful supply of French clothes.

The square scarf is still a practical and smart addition to a steamer costume, protecting, as it does, the neck from the wind and sun.

While wool sweaters have been and are smartest, one is beginning again to see silk sweaters, of the slip-on variety.

If you do not want to let your hair grow to its natural length, at least let it grow longer, and for evening wear it curled into ringlets, instead of merely waved.

One of the smartest French sweaters has what appears to be a bandanna knotted at one shoulder, knitted in with the sweater and done in contrasting wool.

The difficulty of keeping a bandanna in position is solved by stitching it to the neckline, or clamping it with a decorative metal clasp.

**Nothing Missing**

The inexperienced home seeker was looking over plans, says the Woman's Home Companion, and after hesitating over the spaces marked "vest," and "coats," timidly inquired if there was any other space for clothes. "Surely right here," said the architect, pointing to the division marked "pantry."

**Your Hands Speak**

By Edna Wallace Hopper. While you perform hundreds of commonplace tasks everyone present watches your hands.

You pour tea. You open your purse. You shake hands with an acquaintance. You put on your gloves. All day long people watch your hands.

Do your hands speak for you? Do they suggest cleanliness? They can be firm, capable and at the same time exquisitely kept with practically no effort. Youth Lotion is rubbed into the skin, leaving your hands smooth and dry, so that you can wear gloves immediately after applying.

Just keep a bottle on your dressing table and one where you work (in your kitchen, your office or shop). Use it every time you wash your hands.

The pleasurable sense of feeling your skin so satiny—of seeing it so soft and white—is worth a good deal more than the slight effort. The cost is trivial. You can get a large bottle of my Youth Hand Lotion at any retail counter, 60 cents.

**Easier washday and whiter clothes**

no scrubbing or boiling

WASHDAY is like a holiday now! No scrubbing, no boiling—it's wonderful! And I get whiter, brighter washes than ever.

My whole secret is Rinso suds. You never saw such suds! They loosen dirt and stains so they float right off. All I have to do is rinse.

This granulated laundry soap is economical, too. It's all I need on washday—no bar soaps, chips or powders. And a very little of it makes such thick, creamy, lasting suds.

What I like most about Rinso's gentle way of cooking clothes whiter is that it spares my hands. They don't get red and coarse any more. Saves the clothes, too, for they don't need to be scrubbed threadbare.

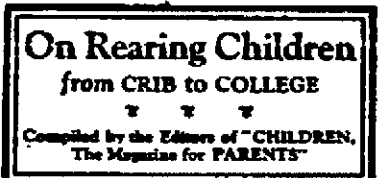

I read in the newspaper the other day that the makers of 32 leading washing machines endorse Rinso. They ought to know!

**Young Moderns Adopt Popular New Tailor**

Strictly tailored two-piece suits are smartly contesting the supremacy of three and four-piece novelty cloth ensembles. The very fact of the tremendous popularizing of the ensemble idea is reacting to an awakened interest in the jacket-and-skirt tailleur, many considering it as a more exclusive mode, at least for the moment. While most of the young moderns who express special fondness for the two-piece suit are choosing navy, quite a few are selecting black or Oxford gray. Fingertip jackets or slightly shorter, one-button, two-button or double-breasted four-button effects, skirts sometimes plaited but frequently with plain stitched side seams, these are the outstanding styling details observed in the new tailleur.

On Rearing Children from CRIB to COLLEGE

Compiled by the Editors of "CHILDREN," The Magazine for PARENTS

The one sure cure for a cold is absolute rest in bed.

A well regulated, routine life for a child is absolutely essential to his physical and mental welfare. Regular habits can be formed only if the child learns from experience that he is to do the same thing every day at the same hour. It is only after the habit has become well established that we can afford to make any exceptions. Even then it is with danger for with each exception from the routine come new interests. Thus we form the habit of irregularity.

The amount of iron contained in a serving of vegetables depends to a large extent on the method of preparation. It will all be conserved if the vegetables can be served raw, steamed or baked, or cooked in a waterless cooker; little will be lost if the vegetable is cooked in a small amount of water, and the juice used in soups or gravies. One-half to one-fourth of the iron content of vegetables may be lost if they are cooked in much water and the water discarded.

If your child has hives, look for a fault in his diet. Applications of calamine lotion two or three times daily over the area involved are usually effective in relieving the itching.

Imaginary hide-and-seek is lots of fun for the convalescent child. One person imagines himself hidden in a certain place and the other guesses where that place is. Another good guessing game is one played in the form of rhymes. The person who is "it," says "I am thinking of a word that rhymes with 'call.'" Then the others ask, "Is it 'tall'?" "Is it 'doll'?" and so on until they discover that brother's red ball is the answer.

When you respect the child's ideas which are at variance with your own, he gradually senses it and in return he learns to observe your point of view with due regard. It is a first lesson in understanding and tolerance. Inevitably it will save both you and him an enormous amount of nervous wear and will help you along to a smooth-running existence, which will make rearing a family not a burden but a job so jolly that the "career" you once thought so wonderful pales by comparison.

**Cowhide Now Used to Give Reptile Effect**

The vogue for reptile skins in women's accessories has produced soft cowhide in every finish common to the reptile family. Snake and lizard-grained leather permitting large surfaced coverings without seams or welts come in all colors, with black and beige as favorites. The beige-colored snake has proved especially smart also for the upholstery of coupes, especially when combined with a piping of vermilion leather. Such designs in black leather give the appearance of enameled here and there and consequently have more life and light in their texture than most highly colored leather.

**For Dancing Nights**

A dance frock of bright red taffeta has three bonnets upon the skirt, each one pinked at the edge. The hem line is extremely uneven so that the skirt appears very short in front and extremely long at the sides.

**Time Standards**

There are four time standards used in this country, eastern, central, mountain and Pacific. The boundaries between these time zones are irregular lines, that between eastern and central passing through Toledo north through the Canadian border.

## Around the World Trip in 33 Days

Tokyo, May 10 (AP)—Tokyo—Araiki today was expected to have made a trip around the world, the only existing record of which, including air travel, was 33 days.

Araiki, a 35-year-old Japanese, in the race started by the newspaper, completed his trip yesterday while his westward-bound competitor, Ryusichi Matsui, was sailing from San Francisco on the ship, which he left five days later than the first.

The newspaper figured Araiki's elapsed time at 33 days, 14 hours and 24 minutes.

By the rules governing the contest, Araiki and Matsui were eliminated from contesting the present record for around-the-world travel held by the Americans, Edward S. Evans and Lincolnton Wells. They completed the globe in 1924 in 23 days, 14 hours, 56 minutes and five seconds, but used other than existing means of communication.

## CARAVAN OF CALLOUSES PUSHING INTO OHIO

Butler, Ind., May 10 (AP)—C. C. "Cross Country" Pyle's caravan of callouses, 41 survivors of an original field of 199 pushed ahead from here today for their sixty-eighth control station at Wauson, Ohio, 42 miles eastward.

Peter Gavuzzi of England, race leader who has traversed the 2,575.7 miles from Los Angeles in 41 days, 14 hours, 56 minutes and five seconds, jugged on even terms with Andy Payne, youthful Oklahoman in second place. Wednesday over the 41.8 mile lap from Ligonier, Ind., for third place, Phillip Graville of Hamilton, Ont., led the way in 5:38:28. Gavuzzi's margin of six hours nine minutes and twenty-three seconds over Payne has remained unchanged the past four days.

John Salo, Passaic, N. J., third place man, continued to cut down the leadership of Payne and Gavuzzi by finishing second in 5:01:55. The runners face a 58 mile hike from Wauson to Fremont on which they will pace just south of Toledo. Elyria will be Saturday's control with Cleveland blid for Sunday.

## COTTEKILL.

Cottekill, May 10.—The Reformed Sunday school on May 6, was well attended. Sunday school on May 13, at 2 p. m., daylight saving time, in charge of the superintendent, L. R. Connor. The lesson title is "Jesus Enters Jerusalem." This date is also Mother's Day, and a good attendance is expected. The superintendent will give a short talk, entitled, "Our Mothers." Visitors and new scholars are always welcome. At the close of Sunday school at 3 o'clock, daylight saving time, preaching service will be held in charge of the Rev. C. Van Tol. His subject will be, "Honor Thy Mother." Everyone is cordially invited to attend both services.

The new addition to the residence of Oscar Knorr has been completed. The carpenter work was in charge of Harry Freer, and the plumbing by Terwilliger Brothers of Kerhonkson.

The foundation for the new building of the Socialist Relief Society is nearing completion. The carpenter work will be rushed in order to get the building finished before the opening of the summer season.

G. W. Bock is having his residence painted. Keator & Davis are doing the work.

Mr. and Mrs. L. R. Connor, Mrs. Harry Snyder and Miss Helen open attended the Grange meeting at Stone Ridge on Monday evening.

A new roof has been placed on the former Hogboom property, now owned by New York people. Walter Keator did the work.

## Mannerchor Concert.

The Rondout Social Mannerchor will give a concert Monday in their hall on the Strand. The program will consist of vocal and instrumental numbers. Good talent has been secured and the affair promises to be very pleasing. This concert has been arranged under the leadership of Prof. Andrew Tzekely, violinist. After the concert a social hour will be enjoyed.

## RELIEF FROM CURSE OF CONSTIPATION

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause."

But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose.

Stop suffering from constipation. Chew a Rexall Orderlie at night. Next day bright. Get 24 for 25c to day at the nearest Rexall Drug Store.

# The AZORES ISLANDS

On the Street of Ponta Delgada.

Prepared by the National Geographic Society, Washington, D. C.

WITH the coming of spring and summer the Azores Islands take on an added interest, for several of the transatlantic airplane flights being planned for this year will use these mid-ocean isles as a stopping and refueling point. Just as merchant vessels have used them for centuries.

Although much has been written about the origin of the islands, this is still a matter of conjecture. Interesting arguments have been advanced to prove they are remnants of the lost continent, Atlantis. One theory is that the islands are the topmost peaks of a subterranean range of mountains extending north and south, and another that they were at one time a part of the continent. English geographers have taken a deep interest in the study of the islands, and it is not improbable that botanical investigations will prove that the latter theory is correct. But whatever may have been the origin of the islands, they are certainly the result of tremendous volcanic eruptions that have continued to change their physical aspect ever since their discovery in the Fifteenth century.

According to a Moorish account, written before the Thirteenth century, an Arabian caravan started from Portugal to discover new lands. Sailing westward for eleven days, the sailors suddenly found themselves in a sea of "fetid gases" and confronted by dangerous rocks and shoals, which so frightened them that they turned southward. It is quite possible that these daring Arabian sailors reached the Azorean waters during a volcanic disturbance, which prevented their further discoveries.

## Pico the Highest Volcano.

Pico, 7,613 feet high, on the island bearing the same name, is interesting as the central and the highest volcano of the islands. It is considered by some as the principal communication of this region with the interior of the earth. Light clouds of vapor occasionally rise from its summit and the ashes at the top are still warm.

St. Michaels has perhaps suffered more from volcanic disturbances than any of the other islands; but Santa Maria, only 53 miles south of St. Michaels, has always been free from eruptions and even heavy earthquakes.

Portuguese architecture was, of course, brought over to the islands by the early settlers. Many of the houses are built of massive blocks of lava rock. The interiors are divided into spacious rooms, provided with many windows and doors that often connect with long rows of balconies. Ornamental designs worked in plaster of paris decorate the painted walls and ceilings. Large chimneys stand like sentinels on the roofs. These chimneys, having long, narrow openings, are in some cases eight feet wide at the lower part, where they rise from the fireplace in the kitchen.

Back of the houses are flower gardens surrounded by high walls. These walls, sometimes 15 feet high, are found everywhere on the island, often enclosing the roads for a long distance.

The Azoreans of the rural districts of the island of Saint Michaels lead rather monotonous lives. The husband or father leaves his home at daybreak to till the soil, while the female members of the family attend to their domestic duties, carry their corn to the nearest windmill, and bring back the meal for the week. Mass on Sunday morning and a walk or visit in the afternoon constitute, in many cases, the only change in their simple lives throughout most of the year. They welcome, with great enthusiasm, therefore, the two great religious celebrations that center around the metropolises of Ponta Delgada, the procession of Santo Christo, and the Imperio do Espirito Santo or Holy Ghost.

## Procession of Santo Christo.

The procession of Santo Christo takes place on the fifth Sunday after Easter. In the afternoon of the day before, the image is taken out of the convent, where it remains all year. It is carried into the adjoining church, which is kept open all night for the 15,000 people who come from far and near, many of them from other islands, to worship and witness the great procession of the year. The pilgrims walk long distances, and make their beds in the park in front of the church or sleep in the vestibule itself. Nor do the faithful worshippers in the United States forget their beloved image. Generous contributions arrive from America, and

In remembrance of absent friends, the American flag is produced in the form of pyrotechnical displays in the Park of San Francisco.

The second of the great religious festivals is the Imperio do Espirito Santo, or Holy Ghost, which extends over a period of ten or more weeks, from Easter Sunday until Saint Peter's day. The season is marked by a series of processions, but the principal and most interesting feature is the poor people. On the last Sunday mormons, or chiefs, whose duty it is to collect money and other gifts, are selected for the ensuing year.

The most attractive feature of carnival time is the "Battle of Flowers" in the square of San Francisco at Ponta Delgada. Those wishing to participate prepare their coaches for that purpose, covering them with elaborate floral designs. Since the introduction of automobiles, these are also used, the bodies and wheels of the cars often forming solid masses of flowers and oranges. The coaches are loaded with baskets full of flowers and confetti. Soon the street and park become a solid mass of people, and the progress of the vehicles is obstructed. Then the battle begins and rages everywhere until the battlefield is covered with a thick carpet of flowers and confetti, and the immaculately dressed women and girls, flushed with the exciting hardship of attack and defense, present a fascinating picture.

## Garb of the People.

The handkerchief still forms the principal head covering of the older women of the peasant class, while the younger wear fancy scarfs. Wooden shoes are also worn by many of the peasant women and servants. The old Carpauc, with its cape falling over the shoulders to protect the neck from the cold, is not used as extensively by the men as in former years, but the tasseled cap used by the laboring class is often seen in the streets of Ponta Delgada.

In the cities many of the women wear a special garb known as the "capote and capello." The capote is a long blue cloak, to which is attached the large bonnet-shaped hood known as capello, which completely hides the face, extending far out in the front and back. This costume is not found elsewhere in Portugal.

Santo Maria, the second island of the eastern district, is much smaller than St. Michaels. On a clear day its outline may be discerned from St. Michaels. Villa do Porto, on the bay of Santa Luzia, is the largest town. This island furnishes much of the red volcanic clay that is used in the manufacture of all kinds of pottery, such as the porous water bottles that keep the water cool, vases, jars, and other receptacles, some of which are very artistically designed. The mountains of this island range from 1,700 to 1,900 feet.

Of the central group, Fayal is the most important. The city of Horta is the principal port. It has a well-protected harbor and is the great cable station of the Atlantic. Nine cables connect the Azores with all parts of the world. A message has been sent around the world from New York via Horta in 11 minutes. The lace workers of Fayal are famous for their skill in making a beautiful drawwork called "crivo."

The islands of Pico, Terceira, Sao Jorge, and Graciosa lie close to Fayal. Pico is separated from Fayal by a narrow channel, only five miles wide.

Terceira is the most interesting of this group from an historical point of view. A naturally fortified place, Angra, the picturesque capital, was the central point of battles and political disturbances of by-gone times. The castle of S. Joao Batista, the old Spanish fortification built on the slope of Monte Brazil, is an interesting relic of the Seventeenth century. The massive walls of this castle extend down to the sea front and to the edge of the city.

**JOHN WERNER,**  
Administrator.**Financial  
and Commercial**New York, May 10 (AP)—Further  
development in the early  
session of the stock market but the  
general list was moving upward in the  
afternoon when the call money rate  
was advanced from 6 to 8 1/2 per cent.  
Banks again led the upturn but a  
strong demand also was apparent for  
the various bonds and a number of  
advances in which favorable  
developments are reported to be  
pending.Trading showed a further falling  
off in volume due to the restriction  
of commitments by many traders  
pending the report on brokers loans  
and the action to be taken on the  
New York Federal reserve redis-  
count rate after the close of the  
market. The monthly tonnage state-  
ment of the United States Steel  
Corporation proved to be a disap-  
pointment as the decrease of 463,673  
tons in unfulfilled orders last month  
was about twice what had been  
generally expected. U. S. Common  
sagged about a point on the outbreak  
of selling which followed the an-  
nouncement.Missouri Pacific issues led the ad-  
vance in the railroad shares on buy-  
ing influenced by the inauguration of  
dividends yesterday on Texas and  
Pacific common stock. Approximately  
40 per cent of which it owns. Both  
the common and preferred advanced  
about four points, the former touch-  
ing 65 1/2, and the latter 125, the high-  
est since the road was reorganized in  
1916.New high records for the year, or  
longer, were registered by New York  
Central, Reading, Louisville and  
Nashville, Northern Pacific, Gulf,  
Mobile and Northern, and St.  
Louis Southwestern.Currys and Wright attained new  
peak prices at 127 and 167, respec-  
tively, although the former had sold  
down to 124 1/2 in the early selling  
movement. Strength of the Bucyrus  
Ernst & Co. was based on expectations  
of heavily increased business as a  
result of the Mississippi river flood  
prevention program. McKeesport tin  
plate, which was transferred from  
the curb to the "Big Board" today,  
ran up more than 2 points on re-  
ports that the company's plants  
were operating at full capacity.Quotations given by Parker Mc-

the doors to open on the big sale of  
Happy Home Dresses at the Rose and  
Gorman Store today. One of the  
chief reasons for the enthusiastic  
response to sale announcements was  
that two entire pages, one in the  
Semi-Weekly Freeman Tuesday and  
the other in The Daily Freeman Wed-  
nesday, had been used by this hust-  
ling live wire store to exploit this  
one item. Old time advertisers  
would raise eyebrows and shrug  
shoulders if a department store  
would be so rash as to devote an  
entire page to the promotion of a  
single item especially if sold at a  
price under a dollar. But these are  
days of big things in a big way and  
the big store certainly does them  
that way—Yes, if you've got the  
goods it pays to tell folks about it  
in a big way in The Freeman.**ALLABEN.**Allaben, May 10.—The Rev. Dow

the piano. Reports were good. New  
committees were appointed. New busi-  
ness taken up was encouraging and  
groups are all working out their  
ideas. The annual sale and supper  
was arranged for. The date will be  
announced later. Some other affairs  
were talked of. The hostesses of the  
afternoon served a generous supply  
of salads, waters, cake and coffee  
which were enjoyed greatly. All had  
such a pleasant time that when the  
time came for departure the people

Periods of Rest, With Music  
Are Beneficial**Music twice a day has proved a  
remedy for "that tired feeling" in  
cotton mills.  
After three months' experiment, a  
textile company finds that fatigue is  
reduced among its machine operatives  
by stopping all work for 12 minutes  
at mid-morning and again for 12 min-  
utes at mid-afternoon, and listening to  
music during these rest periods.The music treatment has moved up  
the operatives so that the same num-  
ber of employees produce as much  
for musical numbers, as they did for-  
merly when they worked without rest  
periods. The music periods amount to  
3 per cent of the working time of the  
employees.Detailed studies had shown that  
weariness resulting from concentra-  
tion at the machines showed most con-  
spicuously about two-thirds through  
the afternoon. The music program  
was inaugurated to offset this fatigue.At ten o'clock and at three o'clock  
work stops for twelve minutes. The  
power is completely shut off. In place  
of the whirring of machinery, the har-  
mony of lively airs pervades the plant  
for the rest periods. Any form of re-  
laxation is permitted to the tune of  
the latest song hit. The music is sup-  
plied by a reproducing phonograph,  
amplified and distributed through all  
the floors of the plant by loud speak-  
ers in each department.**Why Person Can Seem****to Be Reliving Past**Dr. W. A. White, superintendent of  
St. Elizabeth's hospital, Washington,  
says that for one to feel suddenly  
that he has been in exactly the same  
situation before, with identical sur-  
roundings and people, is a common  
experience and is technically known  
as "pareidolia." Briefly explained,  
the reaction depends upon a little  
trick of the mind manifested by a mo-  
mentary loss of a sense of time and  
space. The individual enters into an  
experience or a situation, obtains a  
fleeting impression of this situation,  
then the attention is momentarily at-  
tracted to something else. The period  
of time may be almost infinitesimal.  
Then upon the return of the attention  
to the original situation this lapse  
of time is lost to the individual and  
the period between the two experi-  
ences seems occasionally to expand  
into a long period, even into the re-  
mote past. Another explanation, which  
is based on more recent psychological  
investigations, holds that one's uncon-  
scious mind sees much more than the  
attentive conscious one and that a  
situation, even to its details, may be  
taken in without paying direct con-  
scious attention to it. Then a moment  
later when the faculties of the con-  
scious mind are at work on the situa-  
tion, the experience seems to have  
been experienced before. Here again  
the lapse of time between the two im-  
pressions may be greatly overestimated  
and expanded.**Why Moth's Odd Tongue**The moth has a most peculiar  
tongue. It is rolled up in a tiny coil  
which looks like the hairspring of a  
watch, and this is on the under side of  
the insect's head.It looks quite small when rolled up,  
but it can be uncoiled in a flash into  
a straight tube an inch or more in  
length.Watch a moth visiting flowers, and  
you will see how it is used. The in-  
sect either remains hovering in the air  
or alights upon a petal; then the  
tongue straightens out suddenly, and  
is thrust into the innermost recesses  
of the flower to obtain the honey which  
is hidden there.A few moments are spent in sipping,  
and then the tongue springs back into  
its coil and away goes the moth to  
seek another flower.The length of the tongue depends  
upon the flower visited by the particu-  
lar kind of moth. Those which feed  
on the honey of sweet williams or  
stocks require only a short one; but a  
long tongue is needed by the species  
which visit Canterbury bells, lilies, or  
any other deep-petaled flower.
